

Professional Summary

To leverage my foundational knowledge in computer science and engineering to contribute effectively as a software developer. I am eager to work in a dynamic environment where I can apply my technical skills in programming, problem-solving and software development, while continuously learning and growing as professional. As a Computer Science and Engineering student, I have a solid foundation in data structures and algorithms. I possess hands-on experience with programming languages such as C, Java and have worked on projects involving web development.
